

§ 285.658

30 CFR Ch. II (7–1–10 Edition)

You must submit your decommissioning application as provided in §§ 285.905 and 285.906.

CABLE AND PIPELINE DEVIATIONS

§ 285.658 Can my cable or pipeline construction deviate from my approved COP or GAP?

(a) You must make every effort to ensure that all cables and pipelines are constructed in a manner that minimizes deviations from the approved plan under your lease or grant.

(b) If MMS determines that a significant change in conditions has occurred that would necessitate an adjustment to your ROW, RUE or lease before the commencement of construction of the cable or pipeline on the grant or lease, MMS will consider modifications to your ROW grant, RUE grant, or your lease addendum for a project easement in connection with your COP or GAP.

(c) If, after construction, it is determined that a deviation from the approved plan has occurred, you must:

(1) Notify the operators of all leases (including mineral leases issued under this subchapter) and holders of all ROW grants or RUE grants (including all grants issued under this subchapter) which include the area where a deviation has occurred and provide MMS with evidence of such notification;

(2) Relinquish any unused portion of your lease or grant; and

(3) Submit a revised plan for MMS approval as necessary.

(d) Construction of a cable or pipeline that substantially deviates from the approved plan may be grounds for cancellation of the lease or grant.

§ 285.659 What requirements must I include in my SAP, COP, or GAP regarding air quality?

(a) You must comply with the Clean Air Act (42 U.S.C. 7409) and its implementing regulations, according to the following table.

If your project is located...	you must...
(1) In the Gulf of Mexico west of 87.5° west longitude (western Gulf of Mexico),	Include in your plan any information required for MMS to make the appropriate air quality determinations for your project.
(2) Anywhere else on the OCS,	Follow the appropriate implementing regulations as promulgated by the EPA under 40 CFR part 55.

(b) For air quality modeling that you perform in support of the activities proposed in your plan, you should contact the appropriate regulatory agency to establish a modeling protocol to ensure that the agency's needs are met and that the meteorological files used are acceptable before initiating the modeling work. In the western Gulf of Mexico (west of 87.5° west longitude), you must submit to MMS three copies of the modeling report and three sets of digital files as supporting information. The digital files must contain the formatted meteorological files used in the modeling runs, the model input file, and the model output file.

Subpart G—Facility Design, Fabrication, and Installation

REPORTS

§ 285.700 What reports must I submit to MMS before installing facilities described in my approved SAP, COP, or GAP?

(a) You must submit the following reports to MMS before installing facilities described in your approved COP (§ 285.632(a)) and, when required by this part, your SAP (§ 285.614(b)) or GAP (§ 285.651):

(1) A Facility Design Report; and
(2) A Fabrication and Installation Report.

(b) You may begin to fabricate and install the approved facilities after MMS notifies you that it has received your reports and has no objections. If

Minerals Management Service, Interior**§ 285.701**

MMS receives the reports, but does not respond with objections within 60 days of receipt or 60 days after we approve your SAP, COP, or GAP, if you submitted your report with the plan, MMS is deemed not to have objections to the reports, and you may commence fabrication and installation of your facility or facilities.

(c) If MMS has any objections, we will notify you verbally or in writing within 60 days of receipt of the report. Following initial notification of objections, MMS may follow up with written correspondence outlining its specific objections to the report and request that certain actions be undertaken.

You cannot commence activities addressed in such report until you resolve all objections to MMS's satisfaction.

§ 285.701 What must I include in my Facility Design Report?

(a) Your Facility Design Report provides specific details of the design of any facilities, including cables and pipelines, that are outlined in your approved SAP, COP, or GAP. Your Facility Design Report must demonstrate that your design conforms to your responsibilities listed in § 285.105(a). You must include the following items in your Facility Design Report:
